

# Precautions After CO2 Laser (Ointment)

## — Precautions

1. Apply the prescribed ointment twice daily (morning and evening) until the treated areas have fully healed.
2. Be cautious with any scabs on the treated area to prevent it from falling off too early. When washing your face, gently pat the area with water instead of rubbing.
3. Makeup can be applied to the treated area, but refrain from face shaving until it has fully healed.
4. Some redness may persist around the healed area for 1-6 months, so consistent sunscreen application is advised to prevent pigmentation.
5. Avoid activities that may irritate the skin, such as sauna, steam baths, exfoliation, and massages, for 1 week.
6. Refrain from consuming alcohol, smoking, etc. for 1 week.
7. If you experience any discomfort post-procedure, please reach out to us or visit our clinic to consult with the doctor for further guidance.

If you have any questions, please contact our clinic at [02.512.1287](tel:02.512.1287) to schedule an appointment for further assistance.
